

ARIZONA STATE SENATE
Fifty-Second Legislature, Second Regular Session

FINAL REVISED/AMENDED*
FACT SHEET FOR S.B. 1516

campaign finance amendments

Purpose

Repeals, reorganizes, reinserts and modifies campaign finance requirements.

Background

Generally, political committees fall into three broad categories: candidate committees, political parties and political action committees (PACs). Within each of these categories, political committees are dedicated for specific functions, such as making contributions to candidates, supporting or opposing ballot measures or making independent expenditures. Certain committees may qualify for special status. For example, super PACs registered with the Secretary of State (SOS) may give contributions to candidates at a higher contribution limit. To qualify, the committee must have received \$10 contributions from 500 contributors in the two-year period before applying for the status. A committee with standing committee status has consolidated reporting requirements; the committee must file campaign finance reports with the SOS but is exempt from the filing requirements of other Arizona jurisdictions. To qualify, the committee must be active in more than one reporting jurisdiction for more than one year and pay an annual \$250 fee.

Generally, a *contribution* is any gift, loan, advance, deposit of money or anything of value made for the purpose of influencing an election. However, statute outlines exemptions to contributions, meaning some of the money, loans or in-kind goods and services do not have to be reported. A contribution does not include: 1) the value of services provided without compensation by a volunteer on behalf of a committee; 2) money or the value of anything directly or indirectly provided to defray the expense of an elected official meeting with constituents, or provided by the state or political subdivision to an elected official for communication with constituents, if the official is engaged in the duties of his office; 3) the use of real or personal property used on a regular basis by members of a community for noncommercial purposes, and the cost of invitations, food and beverages voluntarily provided by an individual in rendering voluntary personal services on the individual's residential premises or other property, to the extent that the cumulative value does not exceed \$100 in any single election; 4) any unreimbursed payment for travel expenses for a volunteer; 5) the payment by a political party for party operating expenses as outlined; 6) independent expenditures; 7) monies loaned by a bank made in accordance with applicable law in the ordinary course of business, as specified; 8) a gift, loan or deposit of anything of value to a national or state committee of a political party specifically designated to defray any cost for the construction or purchase of an

office facility not acquired for the purpose of influencing the election of a candidate in any particular election; 9) legal or accounting services if the only person paying is the regular employer of the individual and if the services are solely for the purpose of complying with campaign finance law; 10) the payment by a political party of the costs of campaign materials used by the party in connection with volunteer activities on behalf of any nominee or the payment of the costs of voter registration and get-out-the-vote activities as outlined; 11) transfers between political committees to distribute monies raised through a joint fundraising effort as specified; 12) an extension of credit for goods and services if the terms are substantially similar to extensions of credit to nonpolitical debtors and if the creditor makes a reasonable attempt to collect the debt, except debts that remain unsatisfied by the candidate after six months; and 13) interest or dividends earned on any bank accounts, deposits or other investments.

Similarly, there are exemptions from the definition of *expenditures*. An expenditure is any purchase, payment, distribution, loan, advance, deposit or gift of money or anything of value made by a person for the purpose of influencing an election in this state. However, an expenditure does not include: 1) a news story, commentary or editorial distributed through the facilities of any telecommunications system or periodical publication, unless the facilities are owned or controlled by a political committee, political party or candidate; 2) nonpartisan activity designed to encourage individuals to vote or register to vote; 3) the payment by a political party of the costs of preparation, display, mailing or other distribution incurred by the party with respect to any printed slate card, sample ballot or other printed listing of three or more candidates for any public office for which an election is held, except that this exception does not apply to costs with respect to a display of any listing of candidates made on any telecommunications system or in newspapers, magazines or similar types of general public political advertising; 4) the payment by a political party of the costs of campaign materials as specified used by the party in connection with volunteer activities on behalf of any nominee of the party or payment as outlined of the costs of get-out-the-vote activities; and 5) any deposit or other payment filed with the SOS or any similar officer to pay any portion of the cost of printing an argument in a publicity pamphlet advocating or opposing a ballot measure.

The fiscal impact to the state General Fund associated with this legislation is unknown.

Provisions

General

1. Repeals and reorganizes the campaign finance statutes.
2. Consolidates the different types of political committees into three types of committees: candidate committees, PACs and political parties.
3. Removes the concept of *exploratory committee*.
4. Defines *person* as an individual or a candidate, nominee, committee, corporation, limited liability company (LLC), labor organization, partnership, trust, association, joint venture, cooperative or unincorporated organization or association.

Committee Registration

5. Increases the contribution or expenditure threshold for requiring a candidate to register as a candidate committee from \$500 to \$1,000, in connection with that candidacy.
6. Increases the contribution or expenditure threshold for requiring an entity to register as a PAC from \$500 to \$1,000 in connection with any election during a calendar year.
7. Adds to the criteria requiring an entity to register as a PAC that the entity must be organized for the primary purpose of influencing the result of an election.
8. Defines *primary purpose* as an entity's predominant purpose. Specifies that an entity is not organized for the primary purpose of influencing an election if all of the following apply **at the time the contribution or expenditure is made**:
 - a) the entity has tax exempt status under section 501(a) of the Internal Revenue Code;
 - b) except for a religious organization, assembly or institution, the entity has properly filed a Form 1023 or Form 1024 with the Internal Revenue Service (IRS) or the equivalent successor form designated by the IRS;
 - c) the entity's tax-exempt status has not been denied or revoked by the IRS;
 - d) the entity remains in good standing with the Arizona Corporation Commission (ACC); and
 - e) the entity has properly filed a Form 990 with the IRS, or the equivalent successor form designated by the IRS, **in compliance with the most recent filing deadline established by IRS regulations or policies**.
9. Establishes a rebuttable presumption that an entity is organized for the primary purpose of influencing the result of an election if the entity:
 - a) except for a religious organization, assembly or institution, claims tax exempt status but had not filed Forms 1023 or 1024, or its equivalent, with the IRS before making a contribution or expenditure;
 - b) made a contribution or expenditure and at that time had its tax exempt status revoked by the IRS;
 - c) made a contribution or expenditure and at that time failed to file Form 990, or its equivalent, with the IRS if required by law; or
 - d) at the time of making a contribution or expenditure was registered by the ACC but was not in good standing.
10. Specifies that committees are not subject to state income tax and not required to file income tax returns.
11. Requires the SOS to increase the threshold dollar amounts by \$100 in January of odd-numbered years.
12. Eliminates the requirement for a committee that intends to accept contributions or make expenditures below the threshold to file an exemption statement before it makes expenditures, accepts contributions, distributes campaign literature or circulates petitions.

Statement of Organization

13. Requires a committee to file a statement of organization with the filing officer within 10 days after qualifying as a committee. Currently, if a committee that has filed a \$500 threshold exemption statement receives contributions or makes expenditures of more than \$500, the committee must file a statement of organization within 5 business days.
14. Modifies the statement of organization as follows:
 - a) requires the email address of the committee, chairperson, treasurer and sponsor;
 - b) requires the telephone number and website, if any, of the committee and sponsor;
 - c) removes the requirement for the sponsor to list the relationship and type;
 - d) only requires the candidate's part affiliation for a partisan office;
 - e) allows the sponsor to list the sponsor's commonly known nickname; and
 - f) instead of a statement that the chairperson and treasurer have read all applicable laws relating to campaign finance and reporting, requires the statement to specify that they have read the filing officer's campaign finance and reporting guide, agree to comply with these laws and agree to accept all notifications and service of process via the email address provided by the committee.
15. Requires the committee to file an amended statement of organization within 10 days after any change, rather than within 5 business days.
16. Eliminates the requirement for a standing committee to include in its statement of organization a statement with the notarized signature of the chairman or treasurer declaring the committee's status as a standing committee. Removes the ability of the SOS to charge an annual \$250 fee.
17. Specifies that on filing a statement of organization, a PAC or political party may perform any lawful activity, including making contributions or expenditures or conducting issue advocacy without establishing a separate committee for each activity or specifying each activity in its statement of organization.
18. Permits the *best effort* of the treasurer or treasurer's agent to obtain the required contribution information to be by email, text message or private message through social media.

Recordkeeping

19. Requires committee bank accounts to be segregated as follows:
 - a) committee monies must be segregated in different accounts from personal monies;
 - b) contributions from individuals ~~and committees~~, partnerships, candidate committees, PACs or political parties must be segregated in different accounts from contributions from other donors ~~corporations, LLCs and labor organizations~~;
 - c) contributions to a political party to defray operating expenses or support party-building activities must be segregated in different accounts from contributions used to support candidates;

- d) allows a political party committee to commingle monies from any source in a single bank account if the account is maintained pursuant to a specified federal regulation; and
 - e) requires the committee to segregate contributions intended to influence a recall election into accounts different from those intended to influence any other election, and those recall contributions cannot be used to influence any other election.
20. Limits the identification of contributors of which the committee must keep record to contributors who contribute at least \$50 in the aggregate to the committee during the election cycle.
- ~~21. Deems a contribution made when tendered to the committee's possession. (see provision #76)~~
- ~~22. Deems an expenditure or disbursement made when promised, obligated, contracted for or spent. (see provision #76)~~
23. Specifies that a committee may accept a cash contribution.
24. Requires the committee to keep all records for two years following the end of the election cycle, rather than three years after filing of the finance report.
25. Requires a person that qualifies as a committee to report all contributions, expenditures and disbursements that occurred before qualifying as a committee and to maintain and produce records as prescribed.
26. Removes the requirement for the banks used by committees to be insured by the Federal Deposit Insurance Corporation or the National Credit Union Administration.

Mega PAC Status

27. Renames committees commonly referred to as *super PACs* as *Mega PACs*.
28. Extends the period that a committee must receive the requisite number of \$10 contributions from two years to four years immediately before application to the SOS.

Contributions

29. Specifies that a person may make any contribution not otherwise prohibited by law.

- b) the costs incurred for covering or carrying a news story, commentary or editorial by a broadcasting station or cable television operator, an internet website, a newspaper or another periodical publication, including an internet-based or electronic publication, if the cost for the news story, commentary or editorial is not paid for by and the medium is not owned or under the control of a candidate or committee;
- c) any payment to defray the expense of an elected official meeting with constituents or attending an informational tour, conference, seminar or presentation, if the payor or the elected official does not attempt to influence the result of an election and the payment is reported if required pursuant to statutes regarding financial disclosure for public officers or regulation of lobbyists, or both;

- f) the value of interest earned on the committee's deposits or investments;
- g) the value of transfers between committees to reimburse expenses and distribute monies raised through a joint fundraising effort, ~~except that contributions shall be allocated as described in the fundraising solicitation and expenses shall be allocated in the same proportion as contributions~~ if the transfers comply with a written agreement to reimburse and distribute monies that was executed before the joint fundraising effort occurred;
- h) the value of payment of a committee's legal or accounting expenses by any person;
- i) the value of an extension of credit for goods and services on a committee's behalf by a creditor if the terms are substantially similar to extensions of credit to nonpolitical debtors that are of similar risk and size of obligation. The creditor must make a commercially reasonable attempt to collect the debt, except that if an extension of credit remains unsatisfied by the committee after six months the committee is deemed to have received a contribution but the creditor is not deemed to have made a contribution;

 - r) the costs of publishing a book or producing a documentary, if the publication and production are for distribution to the general public through traditional distribution mechanisms or a fee is obtained for the purchase of the publication or viewing of the documentary.
- 31. Subjects the preparation and distribution of voter guides to the following:
 - a) prohibits a featured candidate or ballot measure from receiving greater prominence or substantially more space in the voter guide than any other candidate or ballot measure; and
 - b) prohibits the voter guide from including any message that constitutes express advocacy.
- 32. Specifies that the exemptions do not imply that any transactions not specifically listed are contributions unless those transactions otherwise meet the definition of *contribution*.

 - c) in the case of a candidate committee for legislative office, the candidate committee makes the contribution when the Legislature is not in regular legislative session; and
 - d) the candidate committee makes the contribution within the campaign contribution limits for individuals.

38. Allows a candidate committee to transfer unlimited contributions to any one or more other candidate committees for the same candidate without regard to the office sought under the following conditions:

- ~~a) both candidate committees must be registered with a filing officer in charge of a city, town, county or district elections for any one or more offices, including offices with different aforementioned filing officers, or both must be registered with the SOS for any one or more offices for which the SOS is the filing officer; and~~

47. Stipulates that a political party may make unlimited contributions to persons other than candidate committees and nominees.

Current law specifies that the establishment, administration and solicitation of voluntary contributions to a separate segregated fund are not political contributions.
49. Permits a sponsor or its segregated fund to solicit contributions from the sponsors, sponsor's affiliates or subsidiaries' employees, members, executives, stockholders, retirees and their families. Currently, such solicitation is limited to no more than two written solicitations per year from a non-stockholder or non-executive.

Expenditures

55. Allows a person to make any expenditure not otherwise prohibited by law.

 - a) the value of an individual's volunteer services or expenses that are provided without compensation or reimbursement, including the individual's travel expenses; use of real or personal property; cost of invitations, food or beverages; use of email, internet activity or social media messages, but only if the individual's use is not paid for by the individual or any other person and if the activities do not contain or include transmittal of a paid advertisement or paid fundraising solicitation;

61. Allows, instead of requires, the filing officer or enforcement officer to consider specified evidence of coordination in evaluating whether an expenditure is an independent expenditure. Specifies that the evidence is rebuttable.

62. Modifies such evidence. Instead of considering whether the person making the expenditure has received any form of compensation or reimbursement in the same election from the candidate, requires consideration of whether the candidate is or has been authorized to raise money or solicit contributions on behalf of the person making the expenditure in the same election cycle.

63. Deems an expenditure coordinated with a candidate, other than a coordinated party expenditure, an in-kind contribution to the candidate.

64. Removes the requirement for a corporation, LLC or labor organization that makes certain independent expenditures over specified thresholds to register and notify the appropriate filing officer within one day.

70. Exempts the following from the disclosures:
- a) social media messages, text messages or messages sent by a short message service;

 - d) a solicitation of contributions by a separate segregated fund;
 - e) a communication by a tax-exempt organization solely to its members; and
 - f) a published book or documentary film or video.

71. Removes the separate disclosure requirements for political committees that make expenditures in connection with any literature or advertisement to support or oppose a ballot proposition. Current law requires disclosure of the four largest major funding sources over a particular threshold.

 - c) an expenditure or disbursement is deemed made either on the date the committee authorizes the monies to be spent or the date the monies are withdrawn from the committee's account;
 - d) for a transaction by check, the expenditure or disbursement is deemed made on the date the committee signs the check;
 - e) for a credit card transaction on paper, the expenditure or disbursement is deemed made on the date the committee signs the authorization to charge the credit card;
 - f) for an electronic transaction, an expenditure or disbursement is deemed made on the date the committee electronically authorizes the charge; and
 - g) for an agreement to purchase goods or services, the expenditure or disbursement is deemed made either on the date the parties enter into the agreement or the date the purchase order is issued.
77. Permits a committee to record its transactions using any of the methods authorized above, but for each type of contribution, expenditure or disbursement made or received, requires the committee to use the same method of recording transactions throughout the entire election cycle.
78. Specifies that in-kind contributions are equal to the usual and normal charges for the services on the date *performed*, instead of on the date received by the committee.
79. Requires a certification by the committee treasurer, issued under penalty of perjury, that the contents of the report are true and correct.

- c) eliminates the requirement for the report to contain the name and address of any person to whom an independent expenditure was made; and the names, occupations, employers and amount contributed by each of the three contributors that contributed the most money within the preceding six months; and
- d) removes the certification under penalty of perjury stating whether or not the claimed independent expenditure is made in cooperation, consultation or concert with or at the request or suggestion of any candidate or any campaign committee.

82. Eliminates the requirement for campaign committees and ballot measure committees to report contributions made from a single source less than 20 days before the election day if the contribution meets specified thresholds.

83. Removes *no activity* reports.
